Feel free to work with other students, but make sure you write up the homework and code on your own (no copying homework *or* code; no pair programming). Feel free to ask students or instructors for help debugging code or whatever else, though.

1 Go through Chapter 4 of the textbook. Run the code in the chapter and reproduce the figures below.

■

2 Run the code from the paper you found in the previous homework. Put the results below and explain what the code does.

■
